Section 1.0 will display the VIN #, LVN and the starting Odometer. The Starting odometer is the mileage that was reported the previous fiscal year.

1.0 Vehicle Details:

VIN:	4
LVN:	0
Starting Odometer:	82687
Superintendent adjustment to mileage:	500
Comments:	Mileage was not reported correctly for 2015.
Adjusted starting odometer:	83187
Ownership:	Owned

NOTE: All superintendent adjustments require a comment.

The superintendent needs to be notified if the starting odometer is incorrect. The Superintendent will need to enter the adjusted mileage into the Superintendent adjustment to mileage field.

- Example: Starting odometer 82687 and mileage should be 83187 - Superintendent would enter 500 and the Adjusted Starting odometer should show the Adjusted starting odometer of 83187. If mileage should be 82187 then Superintendent should enter -500 and the adjusted starting odometer would be 82187.

FAQ's for EFT-24

Q: I am not able to submit section 1.0?

A: The submit button for section 1.0 will not be enabled until ALL questions are answered in section 1.0.

Q: Not able to submit Section 3.0?

A: The submit button for section 3.0 will not be enabled until the VIN's remaining = 0

Q: Why are all of my vehicles not listed on the EFT 24?

A: VIN's that were not in Possession or in service during the reporting period will not show on your report.

Example: Reporting Period 07/01/2015 – 06/30/2016, vehicles with Date of Possession of 08/15/2016 will not show on the 2016 EFT 24, but will show on the 2017 report.

Q: Why is my report showing waiting for certification after my superintendent has already certified the report?

A: If any changes were made or if the Submit button for either section 1.0 or 3.0 was pressed the status of the report will be updated and recertification will be required.

Q: The VIN # listed in section 3.0 on the EFT 24 is incorrect?

A: In order to update a VIN # you must access the edit vehicles page by going into the Inventory Screen and select Edit Vehicle.

Q: Last years mileage is incorrect on some of my vehicles, how do I correct this so it is accurate?

A: A Superintendent has the ability to make an adjustment to mileage by going into the Vehicle Annual Transportation Data screen and entering the adjusted amount (negative or positive) in the "Superintendent adjustment to mileage". The adjusted mileage will display in the "Adjusted starting odometer)
